

Understand Your Discharge Summary

Discharge summary is a snapshot of your hospital care and helps you manage your health after leaving the hospital.

Quick Checks for Patients at Discharge

- ✓ Confirm your personal details are correct.
- ✓ Understand your condition and treatment
- ✓ Understand how and when to take each medication.
- ✓ Collect your all test reports, prescriptions and discharge documents.
- ✓ Keep your hospital bills, insurance papers and medical certificates securely.
- ✓ Be aware of follow-ups, warning signs
- ✓ Keep your doctor's number, hospital helpline and nearby emergency contact handy.

Tips

- Ask your doctor if something is unclear.
- Keep a copy for future reference.
- Share this information with your family or caregiver.

Keep Your Summary Safe And Share Key Info With Family!
